

A1 Care

What is A1Care

A1Care is a combination of herbs that helps maintain healthy blood glucose levels, protects the cardiovascular system, and prevents damage (to body systems) from high blood sugar levels.

A1Care is a combination of herbs that naturally helps:

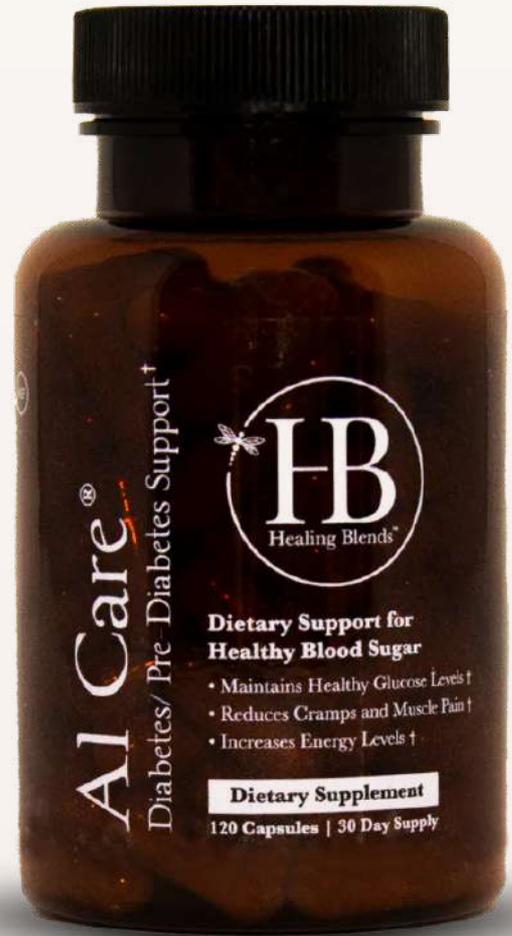

- Maintain healthy blood glucose levels
- Protects the cardiovascular system from high blood sugar
- Prevents damage to body systems from too high a sugar level

Our customers have also noticed that A1Care helped them:

- Lose weight
- Fight fatigue
- Relieve or lessen cramps and muscle pains

How does A1Care work?

Several of the active ingredients have been shown to decrease A1C levels by decreasing the uptake of sugar, by supplying vital trace minerals, or by using specific phytochemicals (biologically active compounds in plants) found in the herbal ingredients to create the desired effect of lowering blood sugar and/or blood pressure.

DANDELION

Dandelion contains vitamins A, B, C, and D, as well as minerals such as iron, potassium, and zinc. These work to lower and stabilize blood sugar levels.

TURMERIC

Turmeric stimulates and increases the immune system, helps regulate blood sugar levels, and lowers high blood pressure.

CODONOPSIS

Codonopsis, also known as Dang Shen, has been shown to reduce blood sugar by increasing insulin sensitivity.

A1 Care

Supplement Facts

Serving per Bottle	25
Serving size:	2

Amount per serving		% Daily Value*
Dandelion	100 mg*	DV*
Tumeric	75 mg*	DV*
Polygonm Multiflori	55 mg*	DV*
Anemarrhena	100 mg*	DV*
Scute Root	35 mg*	DV*
Ginger	15 mg*	DV*
Poria	25 mg*	DV*
Codonopsis	45 mg*	DV*

* Daily Value(DV) not established.
